UNDERGRADUATE DISSERTATION

Government interventions in fostering nighttime conviviality: the Gusu 8:30 initiative in Suzhou — Mar 2023
Xi'an Jiaotong-Liverpool University, Department of Urban Planning and Design

- Studied how a Suzhou municipal nighttime economy initiative affected urban conviviality, using case study, policy review, social media data (Zhihu) and fieldwork on Guanqian Street.
- Interviewed 23 tourists, residents and shopkeepers; over half of respondents viewed the project favourably, while homogeneity and street tidiness were concerns.
- Reviewed municipal bureau policies and sought interviews with the officials responsible for the initiative.
- Concluded that policy support (preferential regulations, events) and street design (lighting, furniture, layout) can strengthen nighttime conviviality.
